# Conditions for obtaining a degree (Graduation)

# Conditions for obtaining a degree (Graduation)

To obtain your degree in the semester you have to

- **Fulfil the Thesis Consultation subject:**

You will receive your Thesis Consultation grade based on the presented thesis, the program and the fulfilment of the consultation milestones. The deadline for the Thesis Consultation grade to be entered in Neptun in case of taking the Final Examination in the current semester **is the 1st of December (autumn semester), the 1st of March (spring semester).**

- **upload your thesis and the finalised program in Neptun**

***Deadlines:***

1 December (autumn semester),

1 May (spring semester)

- **accomplish an internship**

You have to submit a Reference Letter to verify the accomplishment of the internship.

***Deadlines:***

5 December (autumn semester)

31 May (spring semester)

- **Fulfil the subject requirements of the curriculum**

***Deadlines:***

15 January (autumn semester)

18 June (spring semester)

- **Pass the Final Examination**

ELTE

FACULTY OF  
INFORMATICS

Please note that you cannot take the Final Exam if you have debts. To check financial liabilities, see Neptun > Finances menu; as for library 'debts', make sure you have returned all the books you borrowed.

# Fulfil the Thesis Consultation subject

The Thesis consultation subject is assessed on a 3-point grading scale:

- **Excellent:** the student fulfilled all the consultation milestones by the deadline.
- **Satisfactory:** the student does not follow the schedule of the consultation milestones, completes the thesis, but its level of completion fits the level of the last consultation milestone.
- **Fail:** the student will not fulfil the last consultation milestone until the deadline for administering the Thesis consultation grades.

The deadline for administering the Thesis Consultation grade in Neptun in case of students who upload their thesis by 1st of December/ 1st of May is:

 **15 December**

 **15 May.**

In other cases, the deadline for recording the practice grades applies:

 **7 January**

 **7 June**

In exceptional cases, when the student was unable to complete the subject on time due to illness or other extraordinary proven problems, he may complete it until the last week of the exam period with the permission of the vice-dean.

FACULTY OF  
INFORMATICS

# Internship

# Accomplishing the internship

## In 5 steps

1.

**Initiating a Cooperation Agreement between the University and the employer**

2.

**The employer issues the Declaration of Acceptance that has to be accepted by the University**

3.

**Starting the Internship**

4.

**At the end of internship, the employer issues the Reference Letter**

5.

**If everything is correct, the University accepts and administrates the accomplishment of the internship**

1.

## Initiating a Cooperation Agreement between the University and the employer

Find a suitable company for the internship:

**You cannot accomplish your internship too early! Make sure to follow the requirements of your study programme!**

You can choose from a wide variety of companies where you can do IT-related tasks under the supervision of a professional mentor who accepts your supervision, it does not have to be a company related to Informatics.

In case you need some ideas we are recommending you few companies, where our students fulfilled their internship beforehand:

### Companies for Internship

- If you find a research project within the Faculty, you can and would like to join, you can accomplish your internship even within the Faculty.
- If you would rather work through an intermediary company, you can also inquire about the available opportunities at the School Association.
- You do not have to complete your internship during the study term. As it does not have a credit value we recommend you to accomplish your internship during the summer break, so your workload will be shared gradually.

### Important Information!

You may start your internship after the second Active semester in the BSc programme.

Do not leave the selection of your internship place to the last minute! Without accomplishing the internship you cannot sit for the Final Examination or graduate!

ELTE

FACULTY OF  
INFORMATICS

1.

## Initiating a Cooperation Agreement between the University and the employer

### Regulations concerning professional internships

Valid for internships initiated from 10 June 2026

#### PLEASE NOTE:

- Foreign host company must, prior to concluding the Cooperation Agreement, provide proof that they maintain an active cooperation with a local university from which they also accept students for the completion of mandatory internships. The Faculty of Informatics will not conclude an agreement with any foreign organisation that cannot provide such proof; consequently, work carried out by our students at such organisations cannot be recognised and registered as a mandatory internship.
- The Faculty of Informatics reserves the right to verify the professional content of all mandatory internships during the internship period, at its conclusion, and even after the acceptance of the Reference Letter. Students are therefore requested to prepare a professional report of approximately 10 pages on the work carried out during their internship, which they may be required to present to their lecturers in the event of a professional review.

**Make sure to have a valid Cooperation Agreement between the University and the company you will accomplish your internship:**

- The chosen employer can hire you as an intern if a [Cooperation Agreement](#) is signed beforehand between the University and the company or -in case of mediation- with the School Association. A Cooperation Agreement is mandatory even if you already had an employee legal status at the company before starting your internship.
- The Cooperation Agreement does not necessarily have to be signed right before starting your internship. Currently, we have already established valid Cooperation Agreements with multiple companies. For further information inquire at the chosen employer or via the [mandatoryintern@inf.elte.hu](mailto:mandatoryintern@inf.elte.hu) e-mail address.
- The Cooperation Agreement is a contract between the employer and the University. You do not have to sign it. Your task is only to make sure that the Agreement is signed and valid before you start to work as an intern. Contact your future superior or HR to initiate the Agreement directly by contacting the University via [mandatoryintern@inf.elte.hu](mailto:mandatoryintern@inf.elte.hu). The related documentation is available on our [website](#).
- The University and the employer are legally obliged to sign a Cooperation Agreement. We recommend you to not to start your internship until you have a signed, valid Cooperation Agreement. In case by any circumstance the Cooperation Agreement does not go through then it may be, that we cannot accept your internship! In addition to that in case of haphazard labour control both - the employer and the university - can be called to account legally.
- Until there is not a valid Cooperation Agreement, the employer cannot issue the Declaration of Acceptance.

**Important information!**

**Please note that the date of the Declaration of Acceptance cannot be before the date of the Cooperation Agreement and it cannot be later than the date of starting the internship.**

# About the Cooperation Agreement

- By concluding the Cooperation Agreement, the employer acquires the status of a professional internship location, which entitles the company to accept our students for internships.
- Our students cannot fulfil their internship with an employer that does not have an agreement in force. The agreement must also be concluded in the case of an already existing employment relationship or an internship abroad.
- The employer does not have to conclude the agreement with the University only if the student wishes to do an internship through the mediation of a School Association. In this case, the University accepts the agreement between the employer and the School Association.
- Our Faculty currently has agreements in force with hundreds of employers, so we ask our students to kindly inquire about the existing agreements of concluding an agreement with the employer or [your educational assistant](#) when starting the administration of the internship.

### II. SCOPE OF THE AGREEMENT

- II.1. On the basis of the present Cooperation Agreement the Employer undertakes to provide in-company internship per school year for ..... students who are in legal relationship with the University. The internship will be provided free of charge for the following educational programmes:

| educational programme                                                                                                                                          | schedule (hours/week) | number of students |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|--------------------|
| <b>BSc Programme in Computer Science</b><br>240 working hours lasting at least 6 weeks for students admitted in 2012 and 2013                                  |                       |                    |
| <b>BSc Programme in Computer Science</b><br>320 working hours lasting at least 8 weeks for students admitted in or after 2014                                  |                       |                    |
| <b>MSc Programme in Computer Science</b><br>240 working hours lasting at least 6 weeks for students admitted in or after September 2014                        |                       |                    |
| <b>MSc Programme in Computer Science for Autonomous Systems</b><br>240 working hours lasting at least 6 weeks for students admitted in or after September 2018 |                       |                    |

# The administration of the Cooperation Agreement

- The deadline to submit the [Cooperation Agreement](#) 15 day before starting the internship at the latest.
- We can accept the Cooperation Agreement if and only if it is filled out fully and properly and signed by the person authorized to represent the company in the following formats and ways of submission:
  - In an e-mail in PDF format send either
    - the document with the **digital signature** of the person authorized to represent the company
    - **Signed on paper** by the person authorized to represent the company AND **authenticated in the [AVDH system](#)**
- If the representative of the company signs the document by hand, it is mandatory to have the document stamped. In this case submit two original copies in either of the following ways:
  - **Submitting**
    - **In person:** In the Southern building's Northern reception overlooking the TTK anytime (you do not have to request an appointment). Kindly submit the document in a closed envelope and write the following note on it: To **Hilda Varga** Educational Assistant
    - **By postal services** (with advice of delivery service only) to the following address:

*Eötvös Loránd Tudományegyetem Informatikai Kar*  
*Tanulmányi Hivatal, Hilda Varga*  
*1117 Budapest, Pázmány Péter sétány 1/C, 2.316/A*
- Of the documents received as a hard copy the University keeps an original copy for the Archives, the rest will be delivered by postal services (with advice of delivery) to the employer after the dean has signed it .

**Submit the Declaration of Acceptance form issued by your future employer**

By submitting this declaration your future employer (company) lets the University know, that it would like to hire you for an internship within the framework of the Cooperation Agreement. The University has to accept the place of internship beforehand, therefore the declaration has to be submitted before starting the internship either by you or by your future employer!

On the declaration form, the company declares the timeframe of your planned internship and what kind of tasks you will get, who will assist you in the implementation of the tasks.

The declaration will not be accepted automatically by the University. The University consents that you accomplish your internship at the chosen company only if the University finds that the company fits the requirements. Do not start your internship before you receive a feedback e-mail that your Declaration of Acceptance form has been accepted. If your form gets denied your work will not be accepted as an internship. If you start your internship before your Declaration of Acceptance gets accepted you risk this.

Send the document to [mandatoryintern@inf.elte.hu](mailto:mandatoryintern@inf.elte.hu) e-mail address or to the university's [postal address](#). If you send the Declaration of Acceptance form, it will be sent back to your employer after the representative of the University has signed it. You will be informed regarding the status of your Declaration via e-mail, once you receive the e-mail feedback you may start your internship.

## The Declaration of Acceptance

- The internship has to be announced to the University in advance.
- The Declaration of Acceptance is an official way for an employer to let the University know its intention to employ you as an intern which the university accepts/denies.
- The Declaration of Acceptance has to be submitted to the educational assistant 15 days before the start of the internship at the latest. The vice dean of Education will sign the document before the start of the internship.
- Keeping track of the deadlines and the arrangement and coordination of the internship place and schedule is your responsibility.
- Submit the Declaration of Acceptance in a single .pdf file to the educational assistant with
  - A digital signature or
  - As a document filled in on paper signed with a digital authentication or
  - As a document filled in and signed, stamped on paper and scanned (there is no need for the original hard copy for the administration)

**DECLARATION OF ACCEPTANCE FOR INTERNSHIP**

This declaration of acceptance confirms that the student of Computer Science BSc studies at ELTE Faculty of Informatics can complete the mandatory 320 hours internship specified in the training and graduation requirements of the program at the chosen organization within the framework detailed below.

The internship can be started after the approval of this declaration by the Faculty!  
**FROM JANUARY 1, 2024 THIS DECLARATION CANNOT BE SUBMITTED WITH ANY DELAY!  
 ANY WORK WHICH WAS STARTED WITHOUT THE PRELIMINARY APPROVAL OF THE UNIVERSITY,  
 WILL NOT BE RECOGNIZED AS INTERNSHIP ACCOMPLISHMENT!**

## At the end of internship the employer issues the Reference Letter

### Accomplish your internship

- To accomplish your internship you have to work at least the following working hours:
  - **Bachelor of Computer Science:** 320 hours
  - **Master of Computer Science, Master of Computer Science for Autonomous Systems, Master of Data Science:** 240 hours
- As a Stipendium Hungaricum Scholarship holder, you may work 30 hours/ week during the study term, 40 hours/week out of the study term.
- The internship does not need to be done continuously; if required, the 320 working hours can be completed in 2 separate parts, even with 2 separate employers.
- For MSc students: **The University will not approve to the completion of an internship significantly longer than the mandatory 240 hours.** The number of signed working hours must always be between 240 and 260.

The employer confirms the completion of the internship to the University on the [Reference Letter](#).

Department name: \_\_\_\_\_

3.1. Employer's general feedback, comments for ELTE Faculty of Informatics (optional): \_\_\_\_\_

3.2. Short evaluation of the internship, summary from the student (in at least 4 sentences): \_\_\_\_\_

**Please note!**

**The accomplishment of the internship can be registered only in case of an Active status in Neptun!**

## The Reference Letter

- Submit the [Reference Letter](#) as a single .pdf file to the [educational assistant](#). The original document is not needed for the administration, the signed and authenticated form scanned in colour is suitable
- The deadline to submit the form is the 30th day after finishing the internship, BUT **in case you intend to graduate in the same semester, the deadlines are the following:**

 the 5th of December  
 the 31st of May.

- If you complete your internship during the holidays or in the exam period**, in case the Reference Letter submitted by the 31st of August the internship will be registered for the spring semester, in case the Reference Letter is submitted by the 31st of January, the internship will be registered for the autumn semester.
- If you do not submit the Reference Letter within the 30 days deadline, the Education Office will transcribe a late fee every week until the form is submitted (3000 HUF/week, maximum 30 000 HUF)**

5.

If everything is correct, the University accepts and administrates the accomplishment of the internship

### Submit the [Reference Letter](#)

- On this form, **the employer verifies how long you worked for them as an intern, what tasks you were given, and how you completed them.** You must also evaluate your own internship work on this form.
- Based on the employer's and your assessment, **the University decides whether it can accept the internship as a performance.**
- **The Reference Letter has to be sent to the [educational assistant](#) or to our [postal address](#)** either by you or your employer.
- You will not receive the document back, after signing it, **it will be sent to your administrator, who will register the accomplishment of the internship in Neptun.** At the end of the exam period check your Neptun, the administration of your internship has to be completed by then.
- You do not need to inquire about the acceptance of the Reference Letter **If everything is in order, we will automatically notify you of its transfer to your administrator after its acceptance.** If something is wrong, we will let you know.
- **Make sure that the reference letter arrives at the University no later than the 30th day after the end of the internship! If you send the document later than this, the University will charge a late fee based on the current fee schedule. If it is too late, it may even happen that we will only be able to register the internship for the next active semester.**

# Accomplishing the internship with laboratory subjects in the MSc in Computer Science programmes

## In the case of an internship taken at an external internship place

The vice dean of education decides on the acceptance of the filled-out and signed Reference Letters by asking the opinion of the Credit Transfer Committee.

Based on the Reference Letter, the successful completion of the internship is recorded by the Education Office in Neptun.

## Acceptance of laboratory courses on MSc training

If you have completed 2 lab subjects of your curriculum these subjects can be accepted as an accomplished internship. In order to request your lab subjects to be accepted as an accomplished internship please fill out the following in Neptun:

**IK - Accepting laboratory courses as internship.**

**The following subjects can be accepted as internship:**

- **Data Science: Data Science Lab I & II.**
- **Cybersecurity specialisation: Cyber Security Lab I. & II.**
- **Software and Service Architecture specialisation: Software Technology Lab I. & II.**
- **Fintech specialisation: Fintech Lab I & II.**
- **Artificial Intelligence specialisation: AI Project Lab I. & II**
- **Autonomous Systems major: AUS Lab I. & II**
- **Digital Factory: IPMSEK-22fi4DFLAB1 Digital Factory Lab I  
IPMSEK-22fi4DFLAB2 Digital Factory Lab II.**

**In our experience it is difficult for international MSc students to find a suitable English-speaking internship place, therefore we highly recommend accomplishing an internship with lab subjects.**

ELTE

FACULTY OF  
INFORMATICS

# Fulfilling the subject requirements

# In order to obtain the absolutory (pre-degree certificate) you need to fulfil the subject requirements of the curriculum

## BSc programme

In the BSc programme you have to fulfill altogether 180 credits in the following divisions:

**Compulsory subjects 127 cr.**

**Compulsory elective subjects 23 cr.**

**Elective subjects 10 cr.**

**Thesis consultation 20 cr**

# In order to obtain the absolutory (pre-degree certificate) you need to fulfil the subject requirements of the curriculum

## MSc programme

In the MSc programme you have to fulfill altogether 120 credits in the following divisions (click on the link):

- [Artificial Intelligence specialization](#)
- [Cybersecurity specialization](#)
- [Fintech specialization](#)
- [Software and Service Architecture specialization](#)
- [Digital Factory specialization \(Szombathely\)](#)
- [MSc in Autonomous Systems](#)
- [MSc in Data Science](#)
- [MSc in Geoinformatics](#)
- [MSc in Geography](#)

# Understanding the curriculum:

## MSc in Computer Science-Artificial Intelligence specialization

**Compulsory subjects 37 cr.**

**Compulsory elective 47 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

# Understanding the curriculum:

## MSc in Computer Science – Cybersecurity specialization

**Compulsory subjects 56 cr.**

**Compulsory elective 28 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

# **Understanding the curriculum: MSc in Computer Science – Fintech specialization**

**Compulsory subjects 58 cr.**

**Compulsory elective subjects 26 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

## Understanding the curriculum: MSc in Computer Science – Software and Service Architecture specialization

**Compulsory subjects 54 cr.**

**Compulsory elective subjects 30 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

MSc students in Computer Science must accomplish a 240-hour internship. It does not have a credit value, however, its completion is a precondition for obtaining an absolutory (pre-degree certificate). You can read detailed information about the internship [HERE](#).

## Understanding the curriculum: MSc in Computer Science – Digital Factory specialization (Szombathely)

**Compulsory subjects 74 cr.**

**Compulsory elective subjects 10 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

MSc students in Computer Science must accomplish an 240-hour internship. It does not have a credit value, however, its completion is a precondition for obtaining an absolutory (pre-degree certificate). You can read detailed information about the internship [HERE](#).

# Understanding the curriculum: MSc in Autonomous Systems

**Compulsory subjects 43 cr.**

**Compulsory elective subjects 41 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

MSc students in Autonomous Systems must accomplish an 240-hour internship. It does not have a credit value, however, its completion is a precondition for obtaining an absolutory (pre-degree certificate). You can read detailed information about the internship [HERE](#).

## Understanding the curriculum: MSc in Data Science

**Compulsory subjects 73 cr.**

**Compulsory elective subjects 11 cr.**

**Elective subjects 6 cr.**

**Thesis Consultation 30 cr.**

MSc students in Data Science must accomplish an 240-hour internship. It does not have a credit value, however, its completion is a precondition for obtaining an absolutory (pre-degree certificate). You can read detailed information about the internship [HERE](#).

## **Understanding the curriculum: MSc in Geoinformatics (120 credits)**

**Compulsory subjects 70 cr.**

**Compulsory elective subjects  
(A modul/ B modul) 24 cr.**

**Elective subjects 6 cr.**

**Thesis 20 cr.**

## **Understanding the curriculum: MSc in Geography (120 credits)**

**Compulsory subjects 44 cr.**

**Compulsory elective subjects 15 cr.**

**Elective subjects 6 cr**

**Complex field practice 4 cr**

**Thesis 20cr**

ELTE

FACULTY OF  
INFORMATICS

# Thesis topic registration

# Thesis topic registration

For students of the Faculty of Informatics (both in Hungarian and English training programmes), the thesis topic registration is submitted in the form of an electronic request via Neptun (hereinafter referred to as thesis topic registration requests).

The thesis topic registration request is available in Neptun under the menu item **Administration -> Requests -> Available request forms**.

You can choose from the topics offered by the departments, or you can pick a topic yourself if you find a suitable supervisor. If you choose an external supervisor, you must also look for an internal consultant. In the BSc training programme, the Faculty appoints an internal consultant for you, in the MSc course, this is the student's responsibility. **Please submit your request in time!**

**The request cannot be submitted without a supervisor!**

## BSc in Computer Science training

The supervisor can be an internal consultant (see later) AND an external supervisor in one person if he has an appropriate qualifications (at least a bachelor's degree and a few years of professional experience, or is an ongoing master's student in the same field of study). The external supervisor, however, also requires an internal consultant. The supervisor is responsible for the professional content of the thesis and provides professional assistance to the student during his thesis activities. Before submitting the thesis, he reviews the thesis. It is important that, if he is an external supervisor, he knows the faculty's expectations, especially the criteria for evaluating the thesis.

The internal consultant is a lecturer or doctoral student of the Faculty of Informatics. His/her task is to monitor the student's thesis activities, consult with the external supervisor if necessary, report on the student's work completed up to that point at specified intervals (milestones), write an evaluation of the thesis, indicate to the Final Examination Committee the topics of the main material related to the thesis, prepare the student for the thesis defense to be presented in the Final Examination. His/her task is to review and comment on the topics selected for the Final Examination. Suppose the student does not manage to find an internal consultant for his or her thesis before submitting the request for thesis topic registration, he or she can also submit it with the external supervisor, in which case the Faculty can assign the internal consultant.

After the deadline, the thesis topic registration request can only be submitted by specifying an internal supervisor/consultant. In the case of submitting the request late, the faculty will not subsequently assign an internal consultant to the thesis.

We recommend the following procedure before submission:

- Discuss the topic to be worked on with your supervisor (this is also included in the request).
- Formulate a short description of the topic of the thesis together.
- Upload the data and the description in the request.
- Double-check the data of the supervisor so that it is recorded correctly.

## The content of the thesis topic registration is the following:

- Data of the student,
- Level of training,
- Data of the supervisor (in the case of an external supervisor, the data of the external supervisor AND the internal consultant)
- The title of the thesis
- Short description of the thesis topic: max. ½-1 page, based on which the difficulty and complexity of the task to be solved can be evaluated.

After submitting the application, the internal consultant will be assigned as the reviewer, or the head of the given department as the decision maker. If the internal consultant meets a thesis topic registration form that is not suitable for submission, he/she sends it back for correction.

When the student registers for the Final Examination, the Education Office checks whether the thesis topic registration has been accepted. When uploading (submitting) the thesis, the thesis topic registration request (which can be downloaded from Neptun) must be uploaded together with the required documents. (You can find more details [here](#).) During the Final Examination, the Committee will check that the topic and the thesis are in line with the uploaded thesis topic registration request.

## The deadline to submit the thesis topic registration requests:

 **15th of October**

 **15th of May**

- The request can be submitted between the 16th and 29th of October and 16-29 of May for an additional charge (late fee).
- There must be 6 months between the date of the thesis topic registration and the Final Examination. You can change the thesis topic after the submission, but there must be at least 4 months between the change of the thesis topic and the Final Examination.

You can change the thesis topic until the

 **1st of February**

 **31st of August**

Via the IK-Request for changing the thesis topic request in Neptun Administration > Requests. In case of submitting the form multiple times, the last submitted form is considered valid.

- **If you would like to change a thesis topic OR supervisor, use the IK-Request for changing the thesis topic request .**
- **If you want to change the thesis topic AND supervisor, use the Thesis topic registration request and make sure that there is at least 6 months between the submission of the request and the Final Examination.**
- **You can only submit the IK-Request for changing the thesis topic request only if you have a previously accepted thesis topic registration.**

**The Thesis topic registration request is valid for 2 years, after which a new Thesis topic registration request must be submitted.**

# Things to do before submitting your thesis

- Check whether your thesis topic declaration is still valid:
- The thesis topic registration is valid for 2 years
- if the topic OR supervisor has changed, you must report the change in Neptun Administration > Requests> IK-Request for changing the thesis topic request.
- **You can only submit the** IK-Request for changing the thesis topic request **only if you have a previously accepted thesis topic registration.** In case of correction, contact your study coordinator.
- If you want to change the thesis topic AND the supervisor or its validity has expired (2 years), then use the thesis topic registration request and make sure that there are at least 6 months between the submission of the request and the Final Examination.
- If there have been no changes to the topic or the supervisor and it is within 2 years from the date of submission (the topic notification is valid), then you have nothing to do in this regard.

- **If you would like to change a thesis topic OR supervisor, use the** IK-Request for changing the thesis topic request.
- **If you want to change the thesis topic AND supervisor, use the Thesis topic registration request and make sure that there are at least 6 months between the submission of the request and the Final Examination.**
- **You can only submit the** IK-Request for changing the thesis topic request **only, if you have a previously accepted thesis topic registration.**

**The Thesis topic registration request is valid for 2 years, after which a new Thesis topic registration request must be submitted.**

- Additional information
- Viewing the Thesis evaluation

# The Thesis

- **The formal requirements of the thesis are different by the training programme:**

For further information please follow the [LINK](#).

- ***Deadlines for uploading the thesis:***

1 December

1 May

Start your thesis with the [inner cover](#)! Attach the electronic Thesis Topic Registration Form downloaded from the Neptun system as the next page in your thesis.

## Documents to be uploaded to Neptun:

Only one file can be uploaded in pdf or zip format. The uploaded file has to contain the following documents in addition to the thesis and the programme:

- **Thesis Topic Registration Form**
- **If needed:** documents regarding [Encryption](#)
- [Declaration on the Use of AI Tools](#) (to be included in the uploaded .zip file)

In case you can't print and sign the documents **listed above**, fill them in electronically and add the following abbreviation after your name: sgd.

## For uploading data files bigger than 200 MB please follow these steps:

**1.Upload in zip file:** the Thesis Topic Registration Form, the Thesis, the source-code of your programme (concerning your own work), the Encryption request (if applicable) and a document where you indicate that the whole thesis programme is available on Onedrive (give access to the head of the Final Examination Committee, who will forward the documents towards the other members of the Committee).

**2.Upload the whole thesis programme onto Onedrive, available via your inf mailing system.**

All uploaded files (including those on OneDrive) must be created before the submission deadline.

ELTE

FACULTY OF  
INFORMATICS

**Please note! The deadline to upload applies for the documents uploaded on Onedrive (the date of upload is visible on Onedrive as well). We do not accept modifications or alterations after the deadline. It goes for the same for the documents uploaded in Neptun and for those files, what due to the size of the program were made available via a link.**

**Deadline for the autumn semester**

**Deadline for the spring semester**

## The content of the thesis topic registration is the following:

- Data of the student,
- Level of training,
- Data of the supervisor (in the case of external supervisor the data of the external supervisor AND the internal consultant)
- The title of the thesis
- Short description of the thesis topic : max. ½-1 based on which the difficulty and complexity of the task to be solved should be able to be evaluated.

After submitting the application, the internal consultant will be assigned as reviewer, or the head of the given department as decision maker. If the internal consultant meets a thesis topic registration form which is not suitable for submission, he/she sends it back for correction. konzulense dolgozik.

When the student registers for the Final Examination, the Education Office checks whether the thesis topic registration has been accepted. When uploading (submitting) the thesis, the thesis topic registration request (which can be downloaded from Neptun) must be uploaded together with the required documents. (You can find more details here.) During the Final Examination, the Committee will check that the topic and the thesis are in line with the uploaded thesis topic registration request.

## The deadline to submit the thesis topic registration requests:

 **15th of october**

 **15th of may**

- The request can be submitted between the 16-29th of october and 16-29 of may for an additional charge (late fee).
- There must be 6 months between the date of the thesis topic registration and the Final Examination. You can change the thesis topic after the submission but there must be at least 4 months between the change of the thesis topic and the Final Examination.

You can change the thesis topic until the

 **1st of february**

 **31st of august**

Via the IK-Request for changing the thesis topic request in Neptun Administration > Requests. In case of submitting the form multiple times the last submitted form is considered valid.

- **If you would like to change a thesis topic OR supervisor, use the IK-Request for changing the thesis topic request .**
- **If you want to change the thesis topic AND supervisor, use the Thesis topic registration request and make sure that there is at least 6 months between the submission of the request and the Final Examination.**
- **You can only submit the IK-Request for changing the thesis topic request only if you have a previously accepted thesis topic registration.**

**The Thesis topic registration request is valid for 2 years, after which a new Thesis topic registration request must be submitted.**

# Things to do before submitting your thesis

- Check whether your thesis topic declaration is still valid:
- The thesis topic registration is valid for 2 years.
- If the topic OR supervisor has changed, you must report the change in Neptun Administration > Requests> IK-Request for changing the thesis topic request.
- **You can only submit the** IK-Request for changing the thesis topic request **only if you have a previously accepted thesis topic registration.** In case of correction, contact your study coordinator.

# Thesis

## IMPORTANT INFORMATION

Section 381

and Section 79

(1) **If the Supervisor does not accept the degree thesis, it cannot be submitted.** Based on the recommendation of the Supervisor, the Final Examination Committee assesses the degree thesis and summarizes its findings in a report. Based on this report the Office of Educational Affairs registers the result in the Electronic Registration System.

(2) **If the assessment of the degree thesis is unsatisfactory, the student has to write another degree thesis.** The new degree thesis can be submitted in the next final examination period.

(3) Defending the degree thesis is part of the Final Exam.

**If the assessment of your thesis assessment is unsatisfactory, you have to write a completely new thesis and program** If, in the opinion of your supervisor or based on your own assessment, your work does not meet the thesis requirements, you are advised to focus on obtaining your absolution and submit your thesis in a subsequent semester.

**DO NOT TAKE RISKS!!!**

## Make sure to avoid plagiarism!

### Section 377/A

- (1) A student who uses aids other than those specified by the instructor or provides unauthorised assistance to another student during an evaluation (exam, test, homework assignment) requiring the preparation of a computer programme or programme module is in violation of the academic rules, and shall not be permitted to complete the subject in the given semester and therefore shall not obtain the credit awarded for the subject.
- (2) A minutes shall be taken of the violation referred to in paragraph (1), which shall include the place, time, and a brief description of the circumstances of the violation, as well as a statement by the student in question declaring whether they admit to or dispute the allegation against them. If the student disputes the allegation against them, the Dean shall conduct a hearing to clarify the facts.

# Make sure to avoid plagiarism!

## Section 74/B

- (1) The following rules apply to use the intellectual property of others:
- a) when using a part or the whole of the intellectual property of others (e.g., copying a passage, quoting, translating, or introducing) the source, the name of the author must be indicated, if the name is clearly stated in the source, or, in the case of oral works, can be clearly attributed to a person;
  - b) when using a part or the whole of the intellectual property of others, depending on the nature, length and aim of its use in the student coursework, in the appropriate situation and to the appropriate extent.
  - c) text quoted word for word must be put in quotation marks, while the extent of information that is a reference but not a direct quote must be made clear in the text, and
  - d) in the case of fair use of intellectual property which goes beyond free use, the student must seek the consent of the author or rightsholder for its use in a student coursework in accordance with the University Regulations, which is to be submitted together with the student coursework (e.g., when quoting an unreleased work).
- (2) 383The lecturer is authorised to check any student coursework and is obligated to check the Student's thesis for plagiarism, specified in the present Section, with specialised software. (3) 384Reference rules of a specific scientific field apply to all other use and indicating use of the intellectual property of others, on which the Faculty shall put out a guideline. Section 74/C385 (1) In the case of a student who does not comply with the provisions regulating the use of the intellectual property of others [Section 74/A-74/B of the present Regulations] regarding the student coursework (with the exception of written or oral exams, the lab minutes or tests), the student coursework must be deemed unfit for evaluation, and the relevant course or thesis must not be rewarded with a grade.
- (2) In the case of a student purporting the intellectual property of others as their own, violating the rules of fair use [Section 74/B (1) of the present Regulations], either word for word or in content, as part of their student coursework or constituting their entire coursework, or submits coursework edited together from parts of intellectual property of others, or violates the rules of using copyrighted work in some other way (such as lifting a word-for-word quote without the use of quotation marks and citing the source or paraphrasing without citing the source) shall especially constitute a disciplinary offence the facts.

# Rules on the Use of AI in the Preparation of Theses

Spring Semester of the Academic Year 2025/26

(Transitional Provisions for the Implementation of Dean's Instruction No. 1/2026 (III.26.))

The provisions of Dean's Instruction No. 1/2026 (III.26.), entitled "*The Use of Artificial Intelligence in Education, Research and Administration*," apply to students submitting their theses in the second semester of the 2025/26 academic year as follows:

## Declaration on the Use of AI Tools

For every submitted BSc and MSc thesis, a signed document titled "[Declaration on the Use of AI Tools](#)" (hereinafter: *Declaration*) must be included as a separate file within the submitted **.zip archive**. **If the Declaration is not attached, or if it is submitted with content that contradicts the supervisor's instructions or contains false statements, the supervisor will refuse to evaluate the thesis, and the student will not be permitted to take the final examination.**

The Faculty's rules and regulations on the use of artificial intelligence are available [HERE](#).

## Supervisor's Instructions

If the supervisor has **prohibited the use of AI tools**, or has made their use subject to specific conditions, the student must comply with these requirements and document this in the Declaration.

If the supervisor has **not prohibited** or restricted the use of AI tools, their use is permitted under the conditions below.

ELTE

FACULTY OF  
INFORMATICS

# Rules on the Use of AI in the Preparation of Theses

Spring Semester of the Academic Year 2025/26

(Transitional Provisions for the Implementation of Dean's Instruction No. 1/2026 (III.26.))

## Conditions for Using AI Tools

The use of AI tools must be clearly described in the Declaration.

Content generated by AI tools (including text or code):

- may **not be submitted as the student's own work**, and
- may **not be used without verification**.

The student bears **full responsibility** for the content of the thesis.

ELTE

FACULTY OF  
INFORMATICS

# Rules on the Use of AI in the Preparation of Theses

## Supervisor's Responsibilities and Verification

The supervisor will:

- check the thesis using the **Turnitin system**, and
- verify the formal and substantive correctness of the Declaration.

If:

- the Declaration is missing, or
- its content contradicts the supervisor's instructions or contains false statements,

then:

- the thesis evaluation will be **refused**, and
- the student will **not be allowed to take the Final Examination**.

Submitting a Declaration containing false statements will result in **disciplinary proceedings**.

In case of suspicion, the supervisor may:

- verify (orally or in writing) that the thesis is the student's own work, and
- involve departmental or institutional leadership and, if necessary, the **Disciplinary Committee**.

## Information Obligation

Supervisors must inform their students **in writing** about these conditions by **15 April 2026**.

ELTE

FACULTY OF  
INFORMATICS

# The Encryption of the Thesis

The thesis may only contain information warranting its confidentiality in justified cases.

The thesis is to be classified as confidential (encrypted) if it

- contains business secrets,
- contains classified information,
- contains a patent or an invention,
- contains the personal data of a third party,
- concerns the University's business interests. (ARS, section 80 (4))

**Documents required for requesting the encryption:**

- **IK - Encryption of the thesis** in Neptun
- the **Statement of Consent** form: the document has to be attached to the request filled out, signed and stamped by the head of the involved company or involved person. This document has to be attached to the Neptun request in pdf format .

# The Encryption of the Thesis

Deadline for submitting the encryption documents:

🍁 The 1st of November

🌸 The 1st of April

- After the electronic request is accepted and the decision is made that the student has obtained the necessary consents for the encrypted thesis, and the supervisor, the reviewers and the members of the Final Examination Committee are granted access by the relevant party.
- Upload the decision to Neptune along with the thesis. When you upload your thesis file, choose the "**Confidential**" option from the Encryption menu.
- In case of encryption, protect your thesis with a password, send the password to your supervisor and - if you have already learned the composition of the future Final Examination Committee - to the members of the committee.

# Thesis upload

**Final title:** Enter the final title exactly as it appears on the cover page of your thesis file. Please provide the complete title here, even if it is not in Hungarian or not exclusively in Hungarian.

In the **Enter title in additional languages** dropdown menu, you may also add the thesis title in English.

Once you have entered all relevant information, click **Save**.

## Upload degree thesis

It is not mandatory to fill in all fields, but the final address must be entered in at least one language.

**Final title**

Enter title in additional languages ▾

# Thesis upload

- **Additional information:** On this page, you can enter the keywords and the abstract of your thesis.
- **Keywords:** Please provide terms related to the topic of your thesis. We recommend entering 2–3 keywords.
- **Abstract:** A maximum of 500 characters can be entered in this field. If the text exceeds this limit, the system will display the following error message:  
"Az entitás érvénytelen attribútummal rendelkezik. A(z) Extra2 értéke túl hosszú (Jelenlegi: ..., Megengedett: 500)."

After entering the keywords and the abstract, click **Save**.

# Thesis upload

**Thesis:** On the thesis upload interface, you can upload your thesis file (often as a compressed file )

Click **Extensions and size limits allowed** to view the accepted formats (ZIP or PDF) and the maximum file size (200 MB).

By clicking the **Upload file** button, you can select the thesis file you wish to upload from your computer.

## Documents to be uploaded to Neptun:

Only one file can be uploaded in pdf or zip format. The uploaded file has to contain the following documents in addition to the thesis and the programme:

- **Thesis Topic Registration Form (after the internal cover page)**
- **If needed:** documents regarding [Encryption](#)
- [Declaration on the Use of AI Tools](#) ( to be included in the uploaded .zip file)

In case you can't print and sign the documents **listed above**, fill them in electronically and add the following abbreviation after your name: sgd.

## For uploading data files bigger than 200 MB please follow these steps:

1.Upload in zip file: the Thesis Topic Registration Form, the Thesis, the source-code of your programme (concerning your own work), the Encryption request (if applicable) and a document where you indicate that the whole thesis programme is available on Onedrive (give access to the head of the Final Examination Committee, who will forward the documents towards the other members of the Committee).

2.Upload the whole thesis programme onto Onedrive, available via your inf mailing system.

## Thesis upload

Neptun will confirm the successful upload of your thesis. The thesis submission is considered final only at this stage.

Please click **OK**.

# The Thesis

## Thesis upload, additional information

- **IMPORTANT! The submission deadline also applies to documents uploaded to OneDrive. Modifications made after the deadline cannot be accepted.** The same requirements apply to students who upload their thesis to Neptun, as well as to those who provide access to their work via a link due to its large file size.
- **The thesis file can be modified until the submission deadline.** To do so, you must first delete the previously uploaded file in Neptun and then upload the revised or updated version.
- **The reviewer will evaluate the version uploaded to Neptun and will send their preliminary assessment of the thesis to the student.**
- **As the evaluation process also takes place in Neptun, uploading the thesis ensures that the supervisor/reviewer and the members of the Final Examination Committee can access it.** Therefore, even students who have previously submitted their thesis in printed form must upload it to Neptun by the specified deadline.
- **If you have an external supervisor, please send their completed evaluation to your internal supervisor via email.** The internal supervisor will upload both evaluations to Neptun in a compressed format.

# Viewing the Thesis Evaluation

Once your thesis evaluation has been uploaded, Neptun will notify you via a system message.

To view the evaluation, navigate to **Studies** > **Degree thesis**, then click **Show more**.

# The Final Examination

# The Final Examination

## Registering for the Final Examination

- For students in the the BSc in Computer Science, **Master of Computer Science, Master of Computer Science for Autonomous Systems, MSc in Data Science programme**

### Way of registration for the Final Examination:

Via Neptun (Submitting the electronic request)

- **For those participating in Budapest-based training(IK):**

Neptun->Administration->Requests->IK - Registration for Final Examination (MSC)

IK - Registration for Final Examination (BSC)

IK - Registration for Final Examination (EIT MSC)

- **For training participants based in Szombathely /SAVARIA/ (IK-SEK):**

Neptun->Administration->Final Exams

At the end of the SEK Final Examination row (will appear in Hungarian: *current semester* SEK záróvizsga időszak (Szombathely)) click on the "+" sign, then choose the **Register** option

- **Deadlines:**

**1 November (autumn semester),**

**1 April (spring semester).**

ELTE

FACULTY OF  
INFORMATICS

**Deadline for the autumn semester**

**Deadline for the spring semester**

# The Final Examination

## Conditions for admission to the Final Examination

- **Students who obtained an absolutory (pre-degree certificate) can sit for the Final Examination.** The determination of accomplishment of the absolutory requirements (checking the fulfillment of the subject requirements of the curriculum) is based on the grades registered in Neptun.
- **Those who have missing grades in Neptun cannot be admitted to the Final Examination.**
- **The Final Examination can be taken by those who:**
  - in the previous semester submitted the '[Thesis topic registration form](#)' request in Neptun, and it got accepted
  - [indicated his/her intention in writing by the given deadline.](#)
  - [Obtained the absolutory](#)
  - [Fulfilled the subject requirements of the curriculum.](#) We would like to point out that the credit value of a subject cannot be broken down/divided between compulsory elective and elective credits, even if the credit value of completed subjects exceeds the number of credits according to the curriculum. For example, for a 4-credit subject, you have to decide which category the 4 credits should be counted into.
  - [Fulfilled the Thesis Consultation subject](#) and it was recorded in Neptun.
  - [Accomplished the internship](#) and this was recorded in Neptun.
  - [Uploaded the thesis](#) to Neptun by the deadline and the supervisor's assessment shows at least a sufficient rating.
  - **He has no debt to the university** (debt in Neptun or library debt).

# The Final Examination

## The Schedule of the Final Examination

- Information about the Final Examination:
  - [BSc in Computer Science](#)
  - [MSc in Computer Science and MSc in Computer Science for Autonomous Systems, MSc in Data Science](#)
- The Topics of the Final Examination are available [HERE](#).
- The Final Exam Committees are available [HERE](#).

Please note that you cannot attend the Final Exam in case you have debts ( for checking financial debt check in Neptun > Finances menu; for library "debt":make sure you returned all the books you loaned from the library)
